The International Facility Management Association (IFMA) Nigeria Chapter has entered into strategic partnership with Max-Migold Ltd for the delivery of best-in-class training services to Corporate Organizations and individual professionals in the Facility Management industry in Nigeria. This collaboration synergizes the brand and positioning of IFMA Nigeria Chapter as the premier FM Professional Association with Max-Migold's achievements in the development and delivery of highly acclaimed professional FM training. IFMA Nigeria has now appointed Max-Migold as Technical Partners in its quest to bridge the gap in the provision of localized practical FM knowledge and skills amongst practitioners.

Under this new arrangement, IFMA Nigeria will continue to organize training sessions throughout the year and issue certificates to participants while Max-Migold will lead the academic development process, working with a team of experienced and certified Faculties and Facilitators. See the table below for the calendar of training activities scheduled for 2017. We invite you to send in nominations and assist with marketing these programs to other stakeholders in the built environment who need training to boost productivity and professionalism.
